The practical, uncomplicated design of the Kun **Original** shoulder rest is based on our earliest handmade model. This rest is adjustable in three directions, and the end members are fitted with a patented locking device to ensure that it will not fully rotate to touch the instrument.

The Kun Original has remained the favourite of amateur and professional players alike.

SHOULDER RESTS

The Kun **Super** rest features an elegant, streamlined shape and simplified size-adjusting mechanism to permit finite adjustment. The Super has slightly different radii, allowing players to choose a rest with, in effect, customized comfort. This lightweight model has become a favourite among the most discriminating players.

The product of two years of research, development and testing, the **Solo** combines pizzazz and practicality. It features a simplified, quick-adjust finger lever that provides ultra-fine size adjustment and eliminates screws. Greater width on the shoulder end gives the Solo added comfort, and a new collapsing mechanism with recessed and integrated drums means its 'feet' can be folded easily for storage. Patterned cut-outs in the Solo's sponge rubber enhance its grip on the player's shoulder and reduce its weight, while ensuring air flow around the shoulder and neck. With its sleek, contoured body and chic two-toned design in metallic bronze and black, the Kun Solo™ is a dynamic and affordable addition to the Kun family of shoulder rests.

A shoulder rest must fit snugly on the instrument which, during playing, sits between the chin and shoulder. These factors require both strength and flexibility. The Kun **Bravo's** bent hardwood laminates provide the only solution, and also help your instrument produce a great sound! Handcrafted in Italy from European curly maple, the **Bravo's** base is finished like the back of a fine violin, while polished brass parts add a final dash of elegance.

The result? A shoulder rest graced with startling good looks and the exceptional functionality players expect from their Kun. **Kun Bravo™: Artistry in a rest**

They are made of soft and supportive cellular rubber that keeps their shape and color for years. The dense rubber material makes them firm yet flexible. All three sizes can be used for all violin and viola sizes and placed anywhere on the instrument, depending on the player preference. They are attached to the instrument with one or two rubber bands. Although developed by violin teacher Eva Belvelin for her students, the rests are now used by professional players, teachers, and students of all ages.

**BELVELIN BOW HANDLES**

Designed by violin teacher Eva Belvelin, these Bow Handles seek to help educators promote an ideal bow grip for their students. By “filling” the bow hand, it aids in proper finger curvature and discourages the thumb from collapsing. It is made from the same advanced cellular rubber as the rest of the Belvelin line, and is firm yet flexible.

The length of all four sizes is the same, approximately 60mm (2.36in).

The diameter of each size is:

- Large – 41mm (1.61in)
- Medium – 35mm (1.38in)
- Small – 29mm (1.14in)
- Extra-small – 24mm (.94in)
